Sydney

Australian Citizen

---

## SKILLS

Languages	JavaScript, Node.js, HTML5, CSS3, Python.
Libraries	React, Express, Bootstrap, Material UI, Cypress.io.
Databases	MongoDB, MySQL.
APIs	REST, Context.
Extras	Git, GitHub, Terminal, MapInfo, mapbox, ArcMap, QGIS, AutoCAD.

I am a junior front-end developer experienced in QA automation using Express, JavaScript, and Cypress.io. Passionate about quality and user experience, I strive to improve my skills and stay up-to-date with industry trends.

---

## EMPLOYMENT HISTORY

Independent | 04/2023 - Present

*Junior front-end developer*

- Developed a diverse portfolio of web applications and sites as part of independent, self-guided projects, demonstrating a strong grasp of front-end development concepts.
- Proficient in a wide range of technologies, including JavaScript, Node.js, HTML5, CSS3, and databases such as MongoDB.
- Experienced in using widely used libraries and frameworks like React, Express, Bootstrap, Material UI, and Cypress.io.
- Skilled in API integration and management, utilizing RESTful services and the Context API.

Driva.com | 08/2020 - 01/2021

*Junior Automation QA*

- Developed and maintained automation scripts using Cypress.io and JavaScript.
- Conducted thorough testing of new features and bug fixes to identify and resolve issues.
- Collaborated with the development team to improve the overall testing process.
- Helped to improve the company's testing coverage and efficiency through the use of automation.

Edukana.com | 05/2019 - 01/2020

*Associate Product Owner*

- Supporting and leading key initiatives relating to product strategy, specifications and development.
- Engaging with stakeholders to create the product roadmap and onboarding new customers.
- Carrying out user research, competitor analysis and performing UAT.
- Creating wireframes (Balsamiq) for designing new features and functionality for the digital platform.
- Working within an Agile framework.
- Created a wireframe for a blog page that was implemented, with great feedback.

Tel Aviv City Municipality, IT Department | 08/2014 - 09/2016

*Product Implementation Manager*

- Leading a team of 5 in the implementation of a complex, web-based, city-wide construction licensing and regulation system servicing architects and construction engineers throughout the region.
- Directing system bug prioritisation and resolution using HP ALM.
- Managing Stakeholders and gathering requirements and feature specifications from 200+ users.
- Responsible for training and supporting around 1000+ engineers and architects to use the system.
- Supporting customers via different channels: face to face, phone, email, remotely.
- Identified opportunities for feature improvements, reducing support calls on various issues by 20-40%.

Taldor Computer Systems | 08/2013 - 08/2014

*Geographic Information System Technician*

- Leading a team in the creation of comprehensive, multi-layer land-use maps.
