Sydney

Australian Citizen

SUMMARY

Junior front-end developer with experience in JavaScript, React, Vue, and Express, grounded in QA automation. I craft clean, performant, accessible interfaces and keep pace with modern web standards. Seeking a front-end role where I can leverage my skills to deliver high-performance, accessible UIs.

SKILLS

- Languages: **JavaScript**, TypeScript, **HTML5**, **CSS3**
- Libraries & Frameworks: **React**, **Vue 3**, **Node** / Express
- UI & Testing: Bootstrap 5, Material UI, Tailwind, D3, Cypress.io
- Database & APIs: MongoDB, PostgreSQL, REST / Context API
- Tools: Linux, Git, CLI, VS Code, OpenAI Codex, Render

EMPLOYMENT HISTORY

Independent | Sydney | 04/2023 - Present

Front-end developer

Design and deliver responsive single-page apps and marketing sites for SMEs and personal brands, using React, Vue 3, Node/Express, and MongoDB.

Selected Projects:

- [LLM Job Finder](#) (2026) – React, TypeScript, AI-assisted development
Web application that analyses uploaded CVs, finds relevant job listings and ranks opportunities using AI-assisted workflows.
- [jennysflowers.com.au](#) (2025) – Vue 3, Bootstrap-Vue, Cloudinary
Mobile-first brochure site with an enquiry form and gallery pipeline for future floral work.
- [YelpCamp Clone](#) (2023) — Express, EJS, MongoDB, Passport
Full-stack CRUD app with auth, image upload (Cloudinary) and Mapbox search.

Impact & Practices:

- Ensured responsive design and cross-browser compatibility for a consistent user experience.
- Collaborated directly with clients, gathered requirements, and maintained clean Git workflows to deliver production-ready code on schedule.
- Leveraged AI-powered tools such as Codex to accelerate development workflows and enhance code quality.

Driva.com | Sydney | 08/2020 - 01/2021

Junior Automation QA

- Developed and maintained automation scripts using Cypress.io and JavaScript.
- Conducted thorough testing of new features and bug fixes to identify and resolve issues.
- Partnered with developers to enhance testability of new features and improve overall testing efficiency.
- Raised automated coverage and helped reduce manual test effort by > 40 %.

Edukana.com | Sydney | 05/2019 - 01/2020

Associate Product Owner

- Created Balsamiq wireframes, performed UAT and translated user feedback into clear requirements and development priorities.
- Supported customer onboarding and coordinated delivery of a new blog module from concept through launch.

Career Break | Relocation to Australia & Family Responsibilities

Sydney, NSW | 09/2016 - 04/2019

- Relocated to Australia and focused on family responsibilities before returning to the technology sector in Sydney.

EDUCATION

B.A. Geography & Human Environment + Management, Tel Aviv University, 2014
