## Summary

I'm a junior front-end developer with experience in JavaScript, React, Vue, and Express, grounded in QA automation. I craft clean, performant, accessible interfaces and keep pace with modern web standards. Seeking a front-end role where I can leverage my skills to deliver high-performance, accessible UIs.

## Skills

- Languages: JavaScript, TypeScript, HTML5, CSS3
  - Libraries & Frameworks: React, Vue 3, Node / Express
  - UI & Testing: Bootstrap 5, Material UI, Tailwind, D3, Cypress.io
  - Database & APIs: MongoDB, REST / Context API
  - Tools: Git, CLI, VS Code    *Selected:* Mapbox, QGIS, AutoCAD
- 

## EMPLOYMENT HISTORY

Independent | 04/2023 - Present

*Front-end developer (Freelance)*

Design and deliver responsive single-page apps and marketing sites for SMEs and personal brands, using React, Vue 3, Node/Express, and MongoDB.

### Selected Projects:

- **jennysflowers.com.au** (2025) – Vue 3, Bootstrap-Vue, Cloudinary  
Mobile-first brochure site with an enquiry form and gallery pipeline for future floral work.
- **Personal Portfolio** (2025) – React, Tailwind CSS, D3.js, react-force-graph  
Interactive force-directed graph showcases projects.
- **YelpCamp Clone** (2023) — Express, EJS, MongoDB, Passport  
Full-stack CRUD app with auth, image upload (Cloudinary) and Mapbox search.

### Impact & Practices:

- Ensured responsive design and cross-browser compatibility for a consistent user experience.
- Collaborated directly with clients, gathered requirements, and maintained clean Git workflows to deliver production-ready code on schedule.
- Leveraged AI-powered tools such as WindSurf to accelerate development workflows and enhance code quality.

Driva.com | 08/2020 - 01/2021

*Junior Automation QA*

- Developed and maintained automation scripts using Cypress.io and JavaScript.
- Conducted thorough testing of new features and bug fixes to identify and resolve issues.
- Partnered with developers to enhance testability of new features and improve overall testing efficiency.
- Raised automated coverage and helped reduce manual test effort by > 40 %.

Edukana.com | 05/2019 - 01/2020

*Associate Product Owner*

- Supporting and leading key initiatives relating to product strategy, specifications and development.
- Engaging with stakeholders to create the product roadmap and onboarding new customers.
- Created wireframes (Balsamiq), conducted user and competitor research, performed UAT, and coordinated customer onboarding to drive roadmap priorities and ensure smooth product delivery.
- Delivered a new blog module from concept to launch, earning positive user feedback.

Tel Aviv Municipality (IT Dept.) | 08/2014 - 09/2016

*Product Implementation Manager*

- Led a team of five in rolling out a complex, web-based construction licensing system to architects and engineers city-wide.
- Directed bug triage and resolution using HP ALM and managed requirements for 200 + stakeholders.
- Trained and supported 1 000 + users via workshops, remote sessions, and documentation.
- Drove feature improvements that cut recurring support calls by 20 – 40 %.

Taldor Computer Systems | 08/2013 - 08/2014

*Geographic Information System Technician*

- Headed a small team creating multi-layer landuse maps for planning authorities.
- Digitised graphical data (AutoCAD) and maintained SQL/Excel datasets with rigorous QA.
- Managed deployment of graphical and alphanumeric deliverables (MapGuide/Maestro).

## PROFESSIONAL DEVELOPMENT

- Mastering TypeScript - 2024 (Udemy), In progress
- Modern React Bootcamp (Udemy, 2023) – 50 h hands-on
- The Web Developer Bootcamp 2023 (Udemy), 2023
- JavaScript Basics (Udemy), 2020
- Automated Software Testing with Python (Udemy), 2020
- The Python Bible (Udemy), 2020

## EDUCATION

B.A. Geography & Human Environment + Management, Tel Aviv University, 2014
